Therapy and Case Management

Southeast Kansas Mental Health Center has partnered with 12 school districts in our catchment area to provide Outpatient Therapists and Case Managers within the schools. This will provide access to the same exact services that you can find at our office, but it will minimize the time your student misses class!

Research indicates that mental health promotion in schools, when implemented effectively, can produce long-term benefits for young people. We are excited to offer these services to the students and families of our communities!

We are now a Certified Community Behavioral Health Clinic!

A certified Community Behavioral Health Clinic provides a whole health approach. We provide comprehensive behavioral health services while also focusing on physical health and whole person wellness.

Services Added

- Patient Navigation Services
- Comprehensive Behavioral Health Screening at Intake
- Primary health Screening including gathering health metrics (Height, Weight, and Blood Pressure)
- Primary Health Resources and Referral

Continued Services

- Access to Counseling and Therapy
- Access to Crisis Services
- Access to Medical Services and Psychiatry
- Community Based Services for Adults and Children
