

School-Based Mental Health Services

Removing Obstacles Together

By engaging with children in their own environments, we can eliminate many obstacles they face in accessing support. Our school-based team collaborates with students, educators, and families to take a comprehensive approach.

Therapy & Case Management

Outpatient Therapists and Case Managers working directly in schools help students access quality mental health care with less time away from class. Support doesn't stop when the school year ends. We continue services throughout the summer so families have ongoing access to care when they need it most.

Benefits of School-Based Services

- Improved Academic Performance
- Early Intervention
- Reduced Stigma
- Increased Accessibility
- Enhanced Social Skills
- Students facing additional challenges
- Better Behavior
- Stronger School Community
